## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Rebecca Rudich on 8-13-04.

The application has been amended as follows:

2. Claims 7-11 have been canceled.

The changes have been made to cancel the non-elected claims and to place the application in condition for allowance.

#### ***Allowable Subject Matter***

3. Claims 1-6 and 12-14 are allowed.
4. The following is an examiner's statement of reasons for allowance: The prior art of record fail to teach or suggest, alone or in combination, the limitations: "the switching transistor or the driving transistor including a channel region made of polycrystalline silicon having a longitudinal grain, wherein the longitudinal grain is substantially parallel to a current flow direction in the channel region" in a manner claimed in claims 1 and 12; and "wherein each of the switching transistor, the driving transistor and the transistors in the gate drive IC and the data drive IC includes a channel region made of polycrystalline silicon having a longitudinal grain, and the longitudinal grain is substantially parallel to a current flow direction in the channel

region” as claimed in claim 6. It is for these reasons in combination with all the other limitations in the independent claims 1, 6 and 12 that claims 1-6 and 12-14 are allowable over prior art of record.

### ***Conclusion***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
